### DISCUSS WATER RATES

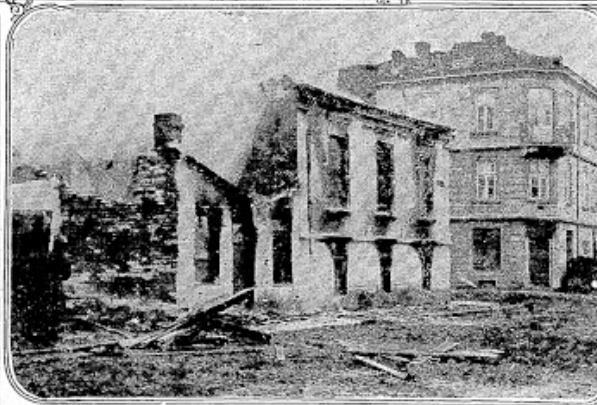

SHIPPERS AND STEAMSHIP MEN CONFERRING.

Tariffs Announced by Seattle's California Lines Expected to Be Changed.

Seattle shippers and representatives of the Puget Sound-California steamship lines gathered today at the Chamber of Commerce the conference began yesterday looking to a modification of some of the rates increased by new tariffs published by the steamship companies effective on March 1. Salt and certain iron and steel articles were the subject of discussion this morning. The conference yesterday resulted in an amicable adjustment of many of the differences between the shippers and the steamship companies, and shippers expressed themselves as quite satisfied with the outcome of the effort of the chamber's transportation committee to bring the shippers and carriers together on a basis of conciliation.

The wholesale grocers in particular expressed satisfaction. Nathan Robinson, their spokesman, declaring that it was the first time in a quarter of a century that the steamship representatives and the grocery distributors had met in a businesslike way to discuss business problems. The conference will end today.

## Los "cambios" en Cuba

Como se esperaba, el Gobierno de Raúl Castro ha hecho pública su decisión de proceder muy pronto al despido de 500 000 trabajadores en su plan de "racionalización" de la economía cubana y de "perfeccionamiento del socialismo cubano". Lo que no se esperaba era que fuese la propia central sindical oficial, la CTC, la que anunciase a los trabajadores y trabajadoras de Cuba tal noticia. No sólo que la anunciara sino que, además, la justificara. Nos encontramos pues en vísperas de una situación nueva y excepcional para una gran parte de los cubanos y cubanas de la isla y por ello hemos pensado necesario incluir en este Boletín una serie de reacciones al respecto.

## Nueva traición de la CTC a l@s trabajadores de Cuba

Comunicado conjunto MLC - GALSIC

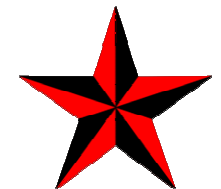

El periódico Granma, órgano oficial del Partido Comunista de Cuba, publicó el pasado 13 de septiembre, un Pronunciamiento (1) de la Central

de Trabajadores de Cuba (CTC), en el que el propio sindicalismo oficial se encarga de anunciar, justificar y defender las medidas de ajuste laboral decididas por el Estado cubano "en correspondencia con el proceso de actualización del modelo económico y las proyecciones de la economía para el periodo 2011-2015", en cuyos lineamientos para el año próximo prevé "la reducción en más de 500

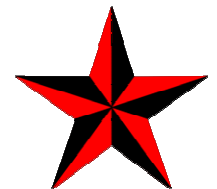

000 trabajadores en el sector estatal y paralelamente su incremento en el sector no estatal".

Tras la respuesta (nada casual) de Fidel Castro, a la pregunta de un periodista yanqui, confesando que "el modelo cubano no funcionaba ni en Cuba" y este vergonzoso y cínico Pronunciamiento de la CTC anunciando, justificando y defendiendo el despido de medio millón de trabajadores cuban@s - medida decidida unilateralmente por el gobierno del presidente General Raúl Castro -, ha quedado bien evidenciado que los Castro se despiden del "socialismo" pero no del poder. Y qué, para seguir en él, están decididos
